Body

Document Body

Carmen;

Please find attached the first amendment to the July 10, 2009 Polychlorinated Biphenyls (PCBs) Notification Plan for the Pechiney site. This amendment includes a written response to U.S. EPA's first and second set of questions for your review and consideration. The attached documents along with a CD containing a copy of the September 2009 update to the Feasibility

Study (FS) referenced in the attached response to questions was sent to your attention by overnight mail.

In a separate submittal, that will follow as amendments 2 and 3 to the application, will be the following documents:

- Proposed scope to collect and analyze additional concrete samples for PCBs.
- Proposed scope to collect and analyze PCB-impacted soil and concrete for the presence of dioxin-like PCB congeners (also known as coplanar PCBs).

If you have any questions or need any additional information, please give me a call.

Thank you,

Linda Conlan, PG
